

COMP3419 Lab Submissions & Assignment Penalty Specification

The mark of Lab Submissions & Assignment would be given as two parts, namely the **submission** and the **demonstration**.

Online Submission via Canvas: The students should submit their source code (with the technical report and other files if required) to Canvas before the deadline specified.

On-site Demonstration: The students are required to provide a living demo/presentation to demonstrate their source code (downloaded from Canvas) in the timetable-allocated lab session specified.

Penalties:

- A. The students make their **submissions** before the deadline and cannot perform the **demonstration** within their timetable-allocated lab session:
 - No late lab demonstration is accepted and the lab tutor would mark the submission files without demonstration, but with 50% penalty applied (i.e., your maximum mark will be 2.5 out of 5 for the lab submission and 12.5 out of 25 for the assignment).
 - B. The students cannot make their **submissions** before the deadline and would like to attend their timetable-allocated lab session for the **demonstration**:
 - Students must submit the source code to Canvas before their demonstration. For this late submission, 50% penalty would be applied as well (i.e., your maximum mark will be 2.5 out of 5 for the lab submission and 12.5 out of 25 for the assignment).
 - C. The students cannot make their **submissions** before the deadline and cannot perform the **demonstration** within their timetable-allocated lab session:
 - Students will receive zero mark with full penalty applied.
-

Plagiarism:

The Canvas would check the plagiarism for all source code submitted and once it is detected, all allegations of dishonesty of the involved students would be treated seriously. Meanwhile, students are expected to provide a clear explanation of the code submitted if necessary.

Further information on academic dishonesty can be found on the academic integrity pages on the current students website: <https://sydney.edu.au/students/academic-integrity.html>.
